

May we submit our proposal to be your **auditors**?

Our clients like us because we **minimize disruption** of their daily administration, and we are very knowledgeable sources for practical operational strategies to help you get the most from historically limited and now threatened budgets.

We are quick, nimble and always ready to parachute in to help get your audit process back on track. We want to be first on your list of audit Firms. Our thirty-year track-record, auditing your kind of organization, counts for low cost, high benefit service.

ALL of the CPAs assigned to your audit have more than twenty five years experience auditing organizations just like yours. We do not have junior staff. ALL of our paraprofessionals have been trained from the ground up in our specialized nonprofit auditing technologies. We have almost no turnover with only one paraprofessional person, and zero professionals, leaving us since our founding in 1989. This benefits your organization through **low fees** and high quality audits.

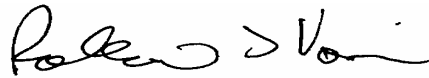

Our independent approach to forwarding your **governance** efforts include: Recent audit regulations and our evolving independence. Free monthly training workshops in sound **fiscal** management. Guidelines for risk assessment and **responsibilities** of Board members, and emerging threats and **opportunities**.

Best regards,

Best regards,
